THURSDAY, NOVEMBER 25TH, 1971

Established in 1882 as the
Minden Echo & Haliburton Recorder

Hearing On Proposed Minden Sewage Plant

The Ontario Water Resources Commission held a Hearing regarding the site of the proposed sewage treatment for Minden, with the Hearing being held in the Municipal Council Chambers on Friday, November 19, 1971, at 1:30 p.m.

Mr. John H. Root, Member of the Legislative Assembly for Wellington - Dufferin, who is Vice-Chairman of the Commission, presided with Mr. D. A. Moodie, a Commissioner with the O.W.R.C.

Representatives of the O.W.R.C. staff; the Haliburton, Kawartha, Pine Ridge District Health Unit; R. V. Anderson Association and the Municipality were present. Reeve Charles Brandon, Councillors Reg Booth and Doug Pritchard, and Clerk-Treasurer Richard Parisotto were on hand to represent the Township of Anson, Hindon and Minden. Only six members of the general public were on hand.

Mr. H. Browne of the O.W.R.C. staff outlined the provisions of the statutes under which this project is proposed, and the necessary certifications of advertisements and notifications were presented.

Mr. Bill Mitchell of R. V. Anderson Associates Ltd., Con-

sulting Engineers, outlined the extent of the proposed sewage system including the treatment plant.

Mr. Jim Beattie of Minden expressed concern regarding the heavy financial burden this project could place on persons with fixed incomes. The Chairman pointed out that the rates would be advertised and ample opportunity would be given to persons who may wish to object. The minimal attendance of the general public at the hearing prompted Mr. R. Krick to ask, with some bitterness, where everyone was that they couldn't attend.

Reeve Charles Brandon urged the Commission to expedite the project with the view of completion in 1972. Councillor Reg Booth related the municipality's experiences in the past where countless delays inevitably ended in costing the people of the community more money and he pressed for swift action to complete the project.

Mr. Root then asked for complaints to the project and when none were forthcoming the hearing was adjourned and the decision reserved.

It is expected that the rates which apply to homeowners will be advertised in the near future.

Snowmobile Trail Closed

The Department of Lands and Forests have confirmed the report that the section of tower transmission line right-of-way crossing the Township of Clyde, a part of Algonquin Park, has been closed to snowmobiles. A spokesman for the Department said at the County Snowmobile Association meeting in Minden last week that his office has received instructions to so post it. This will cut off a favourite route of many area snowmobilers who have made the tower line a winter highway to Whitney. It will affect the economy of that town more than a little, for 'trippers' do spend money there.

Don't blame the Ontario Hydro — they have no part in closing the line. Blame the Parks Advisory Committee who have listened too well to conservationists and the pleas of city people, afraid we might scare their precious

wolf. So we have lost our trail to Whitney. We'll find another, much longer of course, but perhaps more interesting. The important thing is not the closing of one trail; it is that snowmobilers must recognize the fact that they are being pushed around. There are lobbyists at Queen's Park every day trying to ban the snowmobile from this place or that, or to get rid of them altogether. They succeed because they get listened to, and they get listened to because their strongest argument is the high accident rate among snowmobilers. If we were less prone to

making the headlines we would not be up against the tough opposition we are facing today.

Lloyd Woods, an executive member of the Ontario Federation of Snowmobile Clubs, speaking to the Haliburton County Snowmobile Association in Minden, indicated two ways in which we can effectively fight the haters of snowmobiles. First, make no more bad news. Learn to drive safely with complete control. Stop taking chances on thin ice or driving recklessly over unfamiliar terrain. Snowplowed roads are deadly, particularly at night when it is too easy to over-

(Continued on Back Page)

Registration Required For Ice Fishing Huts

Under authority of the Game and Fish Act, Ontario Regulation 13/65, as amended by Ontario Regulation 355/65, has been further amended by the recently-enacted Ontario Regulation 459/71. Subsection 1 of the original regulation states that no person shall place or occupy or attempt to place or occupy any hut used for fishing on the ice of certain designated waters unless the hut bears on the outside, in numerals not less than two-and-one-half inches in height, the number assigned to the owner by an officer of the Department of Lands and Forests in the administrative district where the water is located.

Ontario Regulation 459/71 has added Boshkung Lake, Twelve Mile Lake and Gull Lake, all in the Provisional County of Haliburton, to the list of lakes to which the above regulation applies.

All persons intending to put out

huts on any of these three lakes should apply to the Department of Lands and Forests before doing so. The procedure and exact location to apply to will be announced before the opening day of trout season on these lakes which will be January 1, 1972.

The purpose behind this legislation is to control the abuse of ice fishing huts. The greater majority of ice fishermen are conscious of their responsibilities in not polluting the water or spoiling the beauty of a lake by littering, etc. However, as in all user groups, there is a small number of persons who can earn a bad name for the entire group. In order to preserve and enhance the sport of ice fishing, co-operation of everyone concerned is necessary. The genuine sportsman can protect his sport and the continuing enjoyment of it by co-operating with the Department in reducing opportunities for abuse by irresponsible persons.

The Haliburton County Road System Underway

In 1971 the Haliburton County Council considered the consulting engineer's report on a County Road System for the County, and after much discussion on several proposals the Partial County Road System was accepted by a majority vote of the Council members.

On January 1, 1972, this new limited in extent County Road System will be introduced by the taking over of a certain portion of the present existing roads of the various municipalities of the County. Additional portions will be assumed later on after the new system is underway. In other words, only a part of the proposed system will start under the new operation at once with a further part coming in later when it can be handled.

Some of the portion of the County Road System will join villages to each other and villages to the Kings Highway. The system will also provide a county road service to some of the summer resort areas, and to a part of those roads which have heavy vehicles — such as sawmills, mines, quarries and gravel pits.

There will be a portion of the system effort devoted to creating

new road systems where at present no road system exists. This will be accomplished with the assistance of the Province.

Recently the Minister of Transportation and Communications signed development road pre-engineering designations for parts of five of the proposed Haliburton County roads. The designations are on the road from Eagle Lake to West Guilford, a section of the Deep Bay Road in Lutterworth Township, a portion of the Essonville Road in Monmouth Township, the section of the Kawagama Lake Road from Dorset to Minden Bay, and a short section of the proposed County Road No. 7 from West Guilford northerly approximately one-half mile. The approximate mileage of the roads designated is 22.2 miles, and it is to this particular mileage that the Haliburton County Roads System will be directing the development road resources available in 1972 under the special assistance policy from the Province, developed for the implementation phase of the County Road System. It is estimated that this 22.2 miles will be under construction starting in 1972 at a cost of approximately one million dollars.

Vehicle Crashes Into Cemetery

At approximately 11:00 o'clock on Saturday night last a vehicle proceeding east towards Harburn crossed the road in front of the Evergreen Cemetery near Haliburton and crashed into about a 40-foot portion of the fence, ending up in the cemetery. Tombstones were toppled from their base as the vehicle ran over graves and flower beds and apparently made its exit between the two main gates.

Everyone is hoping that the driver of the vehicle will be apprehended as evidence of the description of the vehicle, plus other important information, had been left on the ground.

Mr. Clifford Kelett, Chairman of the local Evergreen Cemetery Board, suggests that the person or persons responsible would be wise to report to the Ontario Provincial Police at Minden themselves before an arrest is made.

Estimated damage to the fence has been set at about \$1,000.00.

The Minden Detachment of the Ontario Provincial Police are investigating.

Eight To Run For Snowdon Council

A good crowd turned out at the Nomination Meeting of the Township of Snowdon held at the Gelert Community Centre last Saturday evening, November 20. The large number nominated and standing for election for the various positions shows the high interest that will be shown in the upcoming election which will be held on Saturday, December 11.

Incumbent Reeve Robert Vick is back by acclamation as the other three nominated for this position have withdrawn — they were Gerald Hicks, Harold Carr and Carl Dugan.

Nominated for Council, with four to be elected, were Mike Newell, Carl Francis, Ronald Graham, James Green, Steve Hancock, Garth Kellett, Gene Newell, Grace Simmons, Ambrose Watson and Geoffrey Wynn. Mike Newell and Carl Francis failed to qualify their names, leaving eight to run for the Council seats.

Youth Dies In Traffic Mishap

A 17-year-old Dunsford, Ontario youth died early last Thursday morning after being thrown out of his car as it went out of control and rolled off the highway.

The mishap occurred on Highway 121 just north of the junction of Highway 519. The vehicle was southbound at the time.

Dead is Jeffrey Thompson of R.R. 1, Dunsford. A passenger in the same vehicle, James Swanton, 17, of Kinnmount, escaped with minor injuries.

T. Campbell Elected Chairman Of Co-ordinating Council

The Co-ordinating Council met in Lindsay on Tuesday, November 16, for a five-hour meeting to discuss ways and means of improving its working relationship with the regions it serves — they are Haliburton, the Kawarthas, Great Pine Ridge, Hastings County, Land O' Lakes and the Quinte areas. Total area covered is approximately 16,000 square miles of Ontario.

The purpose of this Council is to encourage and co-ordinate the development and promotion of tourism within Central Ontario; to represent to government the views of member regional tourist councils and the hospitality industry; to encourage and assist man-made attractions such as

museums, Indian villages, trading posts, historical sites, boat cruises etc.; to co-operate in the development of co-ordinated marketing plans for the travel industry in Central Ontario; to co-operate with other co-ordinating councils and development councils in Ontario on matters pertaining to travel and recreation.

Mr. Ted Campbell of Minden was elected Chairman of the Council (Mr. Campbell is the Secretary-Manager of the Haliburton Highlands Chamber of Commerce). Members of the Executive Committee are Mr. Lloyd Monteith, President of the Kawartha Tourist Assn., and Mr. George Coling, Vice-President of the Great Pine Ridge Assn.

County Board Of Education Decides On School Changes

The Haliburton County Board of Education decided on the following school changes for September 1972:

Haliburton Highlands Senior Elementary School is to house all Grade 4 - 8 students that now attend Eagle Lake, Lakeview, Victoria Street and West Guilford Schools. Also, the Grade 5 - 8 pupils from Harcourt, Monmouth and Glamorgan Townships will attend the new school. Proposed enrolment for the school will be 524 elementary school students. There will be secondary school students from Haliburton Highlands Secondary School taking Industrial Arts and Home Economics. Victoria Street and Lakeview Schools will have the Kindergarten to Grade 3 students from Eagle Lake, West Guilford and

Haliburton Village. Wilberforce will have four classrooms of Grade 1 - 4 students from Harcourt and Monmouth Townships. Gooderham will operate with two rooms of Grade 1 - 4 students from Glamorgan Township.

It is planned that the Kindergarten students from Harcourt, Monmouth and Glamorgan will continue to attend classes in the Cardiff School, since the teacher and facilities are there.

The Board discussed selling the Harcourt, Eagle Lake and Lutterworth Schools and it was suggested that the West Guilford School be given to the Municipality of Dysart et al to provide a community hall and recreation grounds for the people of Guilford Township.

Liberal Assoc. To Hold Annual Meeting

Announcement of the Victoria-Haliburton Liberal Association's Annual Meeting was made last week by James Flynn, the Riding President. The Liberal Association's Executive Meeting on November 11, 1971, finalized the details for the meeting, which is to be held this Saturday, November 27, 1971, at the Lindsay Golf and Country Club.

The agenda of the meeting will include an Election Review Workshop at 2:00 p.m., Executive Reports and Election of Officers, and Dinner and Guest Speaker at 6:00 p.m.

The President commented that the Election Review Workshop will fulfill a promise made on October 21 to give all association

members an opportunity to comment on how the election was conducted.

Mr. Flynn stated that he is impressed with the high morale that exists in the Liberal Association after the recent provincial election. He described it as a fighting spirit, more determined than ever to give this Riding solid and informed representation in both Toronto and Ottawa.

Speaking of the election of the new Executive, the Association President urged that all interested in the Liberal Party should consider allowing their names to stand in nomination. He stated "this Party is open and will give fair consideration to all interested".

Haliburton Huskies Slip To Second After Weekend Split

The Haliburton Huskies have slipped into second place in the O.H.A. Central Ontario Junior 'D' Hockey League standings after a weekend split in games.

The Huskies, who performed before a crowd of 460 fans at the Haliburton Arena, entertained everyone with a very fast and well played game. The Fenelon Falls Flyers who were short their regular goalie due to an injury

and a couple of other players did well to hold the Huskies to only one goal in the first period. The Huskies outshot the Flyers 17 to 11, and Paul Dawson playing his first game in a Huskies uniform was the only player who was able to score; Bill Leary earning an assist on the goal from the point. The Huskies broke the game open at the :55 second mark of the second period when Bob Wood-

cock who was moved to the forward line connected on his first of three goals. Leigh Bull, Bill Leary and Woodcock again tallied in that order as the Huskies took a commanding lead. Dennis Good played very well in the Huskies net and stopped several shots that were labelled for sure goals. Bob Woodcock notched his third tally at the 4:30 mark of the third period and Gerry McElwain, who also played an effective game, scored at the 13:26 mark to give the Huskies a 7-0 lead. Bev Hicks and Jeff Campbell finished up the scoring as Dennis Good managed his first shut-out of the season.

The Lakefield club moved into first place in the league as they downed the Haliburton Huskies in Havelock on Sunday night to the tune of 5-3. The Huskies played a very poor game and as a result lost the chance to stay at the top of the standings. The ice was very poor and it was difficult for the players to set up any passing plays as the puck was bouncing very badly. John Parish and Leigh Bull sat out the game due to injuries suffered in Saturday's game. The Lakefield club scored the opening goal at the 12:19 mark as Larry Kent, playing his first game in the Huskies net, miscued on a passout and deflected a shot into the net. Jamie Carroll tied the score on a shot from the point four minutes later. Lakefield went ahead at the 13:00 minute mark of the second period and the score remained that way until the :33 second mark of the third when Gerry McElwain scored the equalizer. It appeared that the Huskies would pull ahead as Rick Wood scored the go-ahead goal at the 5:18 mark only to have Lakefield tie the count at 3-3 at the 7:24 mark. The Huskies became a little loose in clearing the puck in their own end and Lakefield took advantage of this as Hermite scored two goals in succession to ensure the win.

The Huskies have a weekend encounter with Cannington on Friday and Saturday night here.

Snowmobile Trail Closed

(Continued from Page One)

drive your headlights. The law says you should drive close to the right hand shoulder, and unfortunately the law says that cars should park there too. Most fatalities were from collision with parked cars. Don't YOU hit one. Stay off the National news. Secondly, because there is strength in numbers, join a snowmobile organization. There are several to choose from, and you will probably get more enjoyment from your money and your machine by joining a club. You'll enjoy many social activities, both on and off the trail. Most clubs are now making an effort to groom their trails, and the more support they can get in numbers the better job they can do. In some cases club membership also includes membership in the Haliburton County Snowmobile Association or the O.F.S.C., or both. Check with the club of your choice, and if it is not affiliated with these organizations urge that it do so at once. Make YOUR voice heard in Queen's Park. Help to make snowmobiles good news.

They are good news to the folks in Port Sydney. Mr. Ross Clarke, President of the Hill and Gully Riders, and Bill Clarke, a resort operator there, told us at the Minden meeting of the great success the club has had in bringing winter visitors to the area and the tremendous impact this had had on the economy. Starting with five or six snowmobilers interested only in getting more fun out of their machines, the Hill and Gully Riders went on to initiating snowmobile rallies and later their spectacular winter carnival. Club membership now doubles the entire population of the village. Their expenditures last year, mostly on trail work, totalled more \$10,000.00. They had \$2,500

left over to start this season. Tourist operators report their January - February revenue is up to 75 per cent of what they make in July and August. Every available room is now booked solid for every weekend from Christmas to March. Service stations, restaurants and tradesmen all are benefitting from the increased winter business.

Another guest speaker was Wiegand, Executive Secretary of the Kawartha Lakes Tourist Association, who told a similar story. When his association organized the Kawartha Cup Races they sparked a winter activity that was entirely unforeseen. Last year the races attracted 55,000 visitors who left an estimated half-million dollars in the community. Tourist operators are staying open in the winter and are doing a good business. A number of snowmobile parks are operated commercially and doing well. The Department of Lands and Forests has opened new trails in the Crown lands of the northern townships of Peterborough and people are travelling many miles to enjoy them.

In Haliburton the majority of our lodges still close by the end of September, and restaurants lay off their summer help, or close for the winter. We have not had, up to now, the foresight nor the organization to realize the full potential of the snowmobile business. We are three to five years behind the Kawarthas and Muskoka, but the Haliburton County Snowmobile Association is determined that we shall not stay behind. If snowmobile operators will stand up and be counted, instead of allowing their sport to be legislated out of existence, we can put the Highlands of Haliburton on the map as one of the best winter playgrounds in North America.

Roy Bates.

Two Injured In Separate Accidents

Two drivers were injured in weekend traffic accidents in this area.

Late last Saturday afternoon Larry Swinson, 21, of Kinmount was slightly injured when his car struck a number of guide-posts on Highway 121 two miles south of Kinmount. His car sustained damages of \$800. Swinson was not hospitalized.

Tuomo Honkaranta, 43, of Willowdale, was taken to the Ross Memorial Hospital in Lindsay on Saturday night last after his car sideswiped one tree and crashed head-on into a second tree on Highway 35 at Cobocok. His car sustained \$1,600 damage.

Alcide Carpentier Enters Into Rest

One of Haliburton's well known citizens, Mr. Alcide Carpentier, passed away suddenly at Haliburton on Wednesday, November 24. The deceased was the beloved husband of the former Evaline McElwain, and was in his 46th year.

The late Mr. Carpentier is resting at the Funeral Chapel of John Welch and Son, Minden, where the funeral service will be held on Friday, November 26, at 2:00 p.m. Interment is to be made at Evergreen Cemetery, Haliburton. The sympathy of the community is extended to his family.

Minor Injury

Casey D. Somerville, 31, of West Guilford was treated at the Haliburton Red Cross Hospital and later released following a single-car mishap in the early hours of Sunday morning. The accident occurred about six miles west of Haliburton on Highway 121. Damage to the vehicle was estimated at \$1,500.

Ontario Provincial Police Constable William Devereaux of the Minden Detachment investigated.

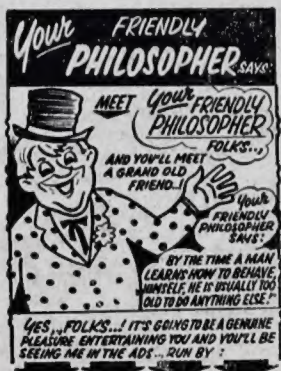

A Trip Into The Unknown

What might be Haliburton County's only Snowmobiling Safety Clinic for this winter will be held this Friday, November 26, at 8:00 p.m. at Haliburton Forest's Base Camp at Kennis Lake. It promises to be an interesting evening. Even driving to Kennis is a thrilling adventure. If it is snowing, the Haliburton Forest Search and Rescue Patrol will be on hand to help you.

Experts will be present to answer your questions about snowmobile insurance and the newest regulations and laws governing the use of snowmobiles.

Your Haliburton County Snowmobile Association will have representatives there. Members of the H.C.S.A. should use this opportunity to tell their executive if they agree or disagree with the government's closure of the hydro line snowmobile trail through the Park to Whitney.

Leave home in plenty of time. Don't worry if you are pressed for time and miss your meal because coffee, bread, cheese and butter tarts are on the house anyway.

The Salvation Army Woman's Group will hold a Christmas Tea and Sale on Saturday, December 4, from 2:00 to 5:00 p.m. Tea .35c.

Mailman Retires After 25 Years

Next Wednesday, December 1, Mr. Leslie Prentice of Minden who has been the mailman on the R.R. 1, Minden route for the past 25 years will retire.

Mr. Prentice started to serve the Rural Route on March 1, 1946, and at that time the length of the route was 28 miles with mail delivery three days a week. Since that time it has steadily increased to a distance of 70 miles with daily delivery.

During the 25 years on the mail job, he has witnessed many changes. Among these are road conditions which have steadily improved every year from the type that only the horse-drawn vehicle could get through in the winter and spring, through a stage when the four-wheel drive jeep was the accepted means of transportation, to our modern fully snowplowed and sanded roads when it is a rare experience not to complete the full trip.

Mr. Prentice told the Echo last week that the many happy experiences he had, as well as the countless friends he made, during his career as "the mailman" will always remain as some of his finest memories.

The Echo joins with his many friends in wishing Mr. Prentice many years of good health and happiness in his retirement.

To Be Speaker At High School

Mr. G. N. Killoran, Chairman of the Chemical Department of Northern College of Applied Arts & Technology, Kirkland Lake Campus, will be a guest speaker at the Haliburton Highlands Secondary School on Friday morning, November 26, 1971. Students in Grades 12 and 13 will be attending to learn more about a career in chemistry, college enrolment standards and facilities.

Mature students working in the community who are interested in returning to school will have the opportunity to speak to Mr. Killoran during their noon hour from 12:00 to 12:30 on Friday, November 26.
